Subject: 11/09/12 News Update: Pavillion and Hydraulic Fracturing
[NewsUpdate Pavillion 110912.pdf](#)
[NewsUpdate HydraulicFracturing 110912.pdf](#)

ALCON,

Attached is the first of a daily news update you will receive from me concerning EPA and the work in Pavillion, Wy., as well as Hydraulic Fracturing. The update will include a full listing of media (traditional and new, i.e. social) headlines concerning the topics. The following pages will be the articles in their entirety. The TCOS staff will additionally be maintaining a hard copy file and a digital record of these articles.

Additionally, I have conducted a historical look back on articles pertaining to the above subjects. There are a total of 5,500 articles relevant to the search criteria. Over the next week I will be reviewing and preparing records of those which are critical for EPA. Those will be added to the hard copy and digital files.

Please note the PR system I am using for this is called Vocus. It provides EPA communicators with access to historical and current news information - if there is ever a need to expand the search criteria or enhance the reporting results, please let me know.

If you have any additional questions or concerns, please let me know.

v/r
Robyn
